

## TECHNICAL DATA

# PAC-260

## NON-FOAMING CLEANER

### Description:

A high alkaline, non-foaming liquid CIP cleaner designed for use on soft metals such as aluminum. This highly concentrated product is extremely effective at removing oils, animal fats, and other stubborn residuals. PAC-260 may also be used as a general cleaning agent on equipment, utensils, etc. This product is ideally suited for use in food plants and other industrial applications.

### Directions for Use:

Rinse the area to be cleaned with hot water (36-60°C) to remove loose soil. Use product at 60 to 180 mL per Liter of hot water, or as desired. Dilution rates vary with length of contact time. Circulate for 10 minutes. Rinse completely with potable water to remove all residuals.

### Contains:

Silicates, potassium hydroxide, phosphonates, solvent.

**FOR FOOD PLANT & INDUSTRIAL USE ONLY**
